

Writing & Illustrating We can make your story stronger

Writing & Illustrating -
Strategies to making your story
stronger with a friendly
framework.

We will be adding the
important bits that keep your
reader interested and wanting
to read more.

Kids have great story ideas
and this program is designed to
give them a framework and
perspective to build their
writing skills.

What type of story does
your student want to write?
Mystery? Adventure? Who will
be the main character? Who
are the secondary characters?

What is your character's
motivation? What moves this
story along? Where will the
story END?

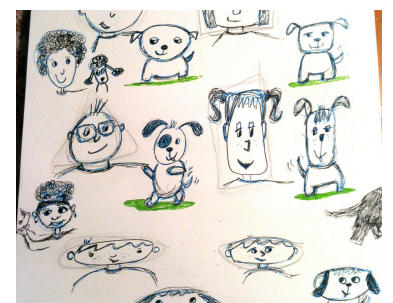

WRITING IS REVISING!!!

All these choices need a
framework to keep it all
together. Move from ideas to
real story.

Of course you want to add
an illustration. Not a
decoration! The illustrations can
show another part of the story.
We can decide between black
& white pen, watercolor, color
pencil, crayon. Remember to

draw some close up shots and
then pan out and let's see the
action!!

Writing = Day 1 visit
Illustrating = Day 2 visit

Also available as a two part
Teacher workshop.
